

Using OverDrive on your iPad, iPhone, iPod

To download EPUB eBooks and MP3 audiobooks from OverDrive, please make sure that your Casselman Public Library User Card is valid and that you have obtained your password from the Library.

Procedure:

An Adobe ID is required to download EPUB eBooks. Should you need to create your ID, please follow the procedures described on the following website:
<https://www.adobe.com/ca/account/sign-in.adobedotcom.html>. Keep your Adobe ID and password at hand as they will frequently be required.

- . The second step requires that you visit the Apple App Store to install the OverDrive Media Console (OMC) application. This application is also available at:
<http://www.overdrive.com/software/omc>. Once the installation is completed, you will be prompted to authorize the device using your Adobe ID.
- . After opening the OverDrive Media Console application, research the Library's Overdrive site.
- . Tap "Get Books+", then "Add a library".
- . Write your PIN number in the box entitled "PIN". **Please note that your PIN number must be requested in person at the Library.**
- . You may now browse the collections by searching with the tab with the three small bars or search for a specific title by using the "Research bar" or "Advanced Research". You may also use the option: available titles only".
- . Click on the cover of the ebook you selected after having chosen the appropriate format, and click "Borrow". Should the ebook not be available, you may use the option "Reserve". A box will appear in which you enter your e-mail address. You will then receive an e-mail when the book becomes available and you have three (3) days to download.

. Select "Read" to read in your browser or touch "Download" to download the book to your device. The book should now appear in the "Bookshelf" section of the OverDrive application.

. To return an ebook, go to "Bookshelf" and touch "Return Title".
